NOTAS

| Variable | Notas |
|-------------------------|--|
| Número de embarcaciones | Las embarcaciones de pesca ribereña, cuyo propósito principal es comercial, tienen eslora menor o igual a 10 metros. En 1997 la Comisión Intersecretarial de Seguridad y Vigilancia Marítima y Portuaria realizó un inventario nacional de embarcaciones, por lo que se pudo contar con información fidedigna y actualizada. Por ello, el dato del número de embarcaciones de pesca ribereña para el año 1997 no debe interpretarse como un incremento de la flota respecto de 1996, sino como una actualización de la información respectiva. Los datos de embarcaciones de pesca de altura corresponden a las pesquerías camarón, atún, sardina-anchoveta y escama. La información de los años 2013 y 2014 proviene del Registro Nacional de Pesca y Acuacultura. En el caso de las embarcaciones de pesca de altura en los años 2013 y 2014, se tomaron en cuenta sólo embarcaciones mayores activas. Los datos del año 2014 son preliminares. |
