NOTAS

| Variable | Notas |
|--|--|
| Recolección de residuos sólidos urbanos en toneladas al día | A partir de los datos de 2010. la fuente considera los resultados definitivos del Censo General de Población y Vivienda 2010. Con la publicación de la Ley General para la Prevención y Gestión Integral de Residuos en mayo de 2003. lo que se conocía como residuos sólidos municipales. pasa a ser residuos sólidos urbanos. En 2008 La cobertura en recolección se incrementó por las inversiones en equipamiento del Programa Hábitat. siendo de 90.12% en la generación y 89.42% en la población beneficiada. lo anterior se explica porque la población a la que no se recolecta. es la que menos genera (generación per-cápita). Los porcentajes de recolección y a su vez. de población servida. son reportadas por la autoridad municipal y se actualizan anualmente con base en las adquisiciones de vehículos recolectores en las bases de datos del programa Hábitat. con el supuesto de que la mitad es para reponer vehículos. La fuente ha dejado de generar esta información: se mantiene como acervo histórico. Con motivo de la reforma de la Constitución Política de los Estados Unidos Mexicanos publicada el 29 de enero de 2016 en el Diario Oficial de la Federación. el Distrito Federal cambió su denominación a Ciudad de México. La información correspondiente a dicha entidad se presenta con este nuevo nombre. |
