NOTAS

| Variable | Notas |
|---|--|
| Certificados ambientales renovados dentro del Programa Nacional de Auditoría Ambiental (PNAA) | <p>En 1997 se entregaron los primeros certificados con una vigencia anual, pero dados los costos de todo tipo que representan para las empresas el poder obtenerlos, la PROFEPA determinó ampliar su validez de uno a dos años, al término de los cuales pueden ser renovados. "Varios estados", se refieren a certificados otorgados a empresas que han instalado ductos cuya longitud recorre más de una entidad. En la presentación de esta información por giro industrial, y en relación con los certificados otorgados con base en el Programa Nacional de Auditoría Ambiental para actividades relacionadas con el sector hidrocarburos (petróleo, gas y petroquímica), la fuente indica que de acuerdo con la Unidad de Gestión Industrial de la Agencia Nacional de Seguridad Industrial y de Protección al Medio Ambiente del Sector Hidrocarburos (ASEA) y de conformidad con las actividades relacionadas en el Artículo 3, Fracción XI, "Sector Hidrocarburos o Sector" de la Ley de la Agencia Nacional de Seguridad Industrial y de Protección al Medio Ambiente del Sector Hidrocarburos, la gestión de certificados deberá ser tramitada por la Procuraduría Federal de Protección al Ambiente, dado que en esas instalaciones auditadas no se realizan actividades atribución de la Agencia. Por otra parte, el rubro "Giros de competencia local" se refiere a actividades que no son giros de Jurisdicción Federal (estos últimos se enlistan en el Artículo 111 Bis de la Ley General del Equilibrio Ecológico y la Protección al Ambiente). Los giros de competencia local incluyen: rellenos sanitarios, centros de distribución, instalaciones dedicadas al comercio al menudeo o al por mayor, tiendas de auto servicio, etcétera. También, la categoría "Otros giros generadores de residuos peligrosos" agrupa actividades contaminantes de la atmósfera, actividades altamente riesgosas, de impacto ambiental y, principalmente, generadores de residuos peligrosos que se dedican a la concentración de minerales, acabado de metales, metalmecánica, farmacéutica, maquila, productos de plástico, textil, impresión, azúcar, muebles, alimentos, bebidas, servicios de fumigación y talleres de servicio automotriz. En el periodo 1997-2010 el desglose por giro industrial manejaba una clasificación diferente a la actual, por lo que la estadística que se reporta incluye sólo el dato total por entidad federativa, sin incluir el desglose por giro industrial y sector de la actividad. La fuente indica que en la generación de esta información utiliza la consulta del Sistema Institucional de Información de la PROFEPA (SIIP). N.A. - No aplica. Se trata de casos en los que aún no puede ocurrir una renovación en particular, por ejemplo, considerando que los primeros certificados se entregaron en 1997 con vigencia bianual, la primer renovación puede ocurrir hasta 1999, la segunda en 2001 y así sucesivamente, de manera que en el año 1999 no aplica esperar que exista segunda renovación y en el año 2001 no aplica esperar tercera renovación, y así sucesivamente.</p> |
