NOTAS

Variable	Notas
Recaudación obtenida por uso de la Zona Federal Marítimo Terrestre	Los datos de 2010 a 2014 fueron modificados por la fuente con base en cifras obtenidas de las delegaciones federales de SEMARNAT en los 17 estados costeros de México. No incluyen recargos y multas. El incremento registrado durante los periodos 1998-1999 y 1999-2000, se debe a la captación de pagos extraordinarios de usuarios por el uso, goce y disfrute de la Zofemat, derivado de las acciones de promoción a la regularización de usuarios que instrumentó la Dirección General de Zona Federal Marítimo Terrestre. De igual forma, en los últimos 3 años se ha ido incrementando la recaudación debido a que las autoridades municipales han concientizado a los ocupantes de zona federal de la importancia del cobro de derechos. La suma de parciales no coincide con los totales por la utilización de cifras redondeadas. Se presenta la información más reciente proporcionada por la fuente (revisión: Octubre, 2020).
