NOTAS

Variable	Notas
----------	-------

Esperanza de vida al nacer	Se refiere al número de años que en promedio se espera viva una persona después de nacer. Los datos son con base en las nuevas estimaciones y proyecciones de población, presentadas en 2018, realizadas por el Consejo con base en la información obtenida de los censos, conteos de población y la Encuesta intercensal 2015. Al respecto, es necesario considerar que estas prospectivas se actualizan cada vez que surge nueva evidencia de cambios en los fenómenos demográficos y, las anteriores, pierden vigencia. La información que se presenta es la más reciente disponible (revisión: Octubre, 2020). Con motivo de la reforma de la Constitución Política de los Estados Unidos Mexicanos publicada el 29 de enero de 2016 en el Diario Oficial de la Federación, el Distrito Federal cambió su denominación a Ciudad de México. La información correspondiente a dicha entidad se presenta con este nuevo nombre.
