NOTAS

| Variable | Notas |
|---|--|
| Denuncias de posibles violaciones a la normatividad ambiental relacionada al sector Hidrocarburos, competencia de la ASEA | Es atribución de la Agencia Nacional de Seguridad Industrial y de Protección al Medio Ambiente del Sector Hidrocarburos (ASEA) recibir, atender e investigar las denuncias ciudadanas que se presenten en las materias competencia de la Agencia y, en su caso, realizar en términos de las disposiciones jurídicas aplicables, las diligencias necesarias para determinar la existencia de los actos, hechos u omisiones motivo de la denuncia, o bien, canalizar dichas denuncias ante las autoridades que resulten competentes (Reglamento Interior de la ASEA. Art. 39, fracc. V). En la presentación de esta información por Rubro, la categoría "Otros" incluye rubros diversos como: Manejo de residuos peligrosos, Oposición a Licitación Pública, Asfalto, Chapopote, Etanol, Tanque estacionario, Taller mecánico, Tala, Maquinaria pesada, Deshuesadero. En 2021, junto con la actualización a datos finales de 2020, la fuente modificó las cifras proporcionadas anteriormente (de 2015 a 2019) a efecto de indicar la información correcta y actualizada. En esto, creó los tipos de denuncia "Contaminación ambiental" y "Ductos" por considerarlos, en el caso del primero, relevantes o, con un número significativo de denuncias, en relación al segundo. Asimismo, incorporó a "Otros" el rubro "manejo de residuos peligrosos" dado el reducido número de expedientes con este motivo. Finalmente, dejó de considerar el concepto PEMEX por no conformar un rubro propiamente, sino tratarse de un "denunciado" dentro de los asuntos. |
